PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience in FinTech, Banking, Telecom, HRMS, and Enterprise applications. Strong expertise in SQL Server, T-SQL, Stored Procedures, query optimization, database development, and reporting. Experienced in banking applications, Credit Bureau (CRB) automation, multi-bank payment integrations, production support, and database-driven application development.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework, FastAPI, REST, SOAP

Frontend: React, JavaScript, Tailwind CSS, Vite

Database: SQL Server, PostgreSQL, MySQL

Tools: Git, Postman, VS Code, Superset, Power BI, Nginx

Data & Analytics: Power BI, Data Analysis, Data Cleaning, Data Transformation, Reporting

Cloud: AWS

EXPERIENCE

Software Developer – CAPTIV Techno Solutions (Nov 2024 – Present)

- Developed HRMS modules and back-end APIs for task, project, resource, timesheet, and reporting workflows.
- Designed and optimized SQL Server queries and Stored Procedures for business logic, reporting, and database performance.
- Troubleshoot production issues and REST API integrations across application and database layers.

Junior Software Developer – Cognitive Platform Solutions (Apr 2024 – Oct 2024)

- Developed and supported banking applications covering LMS, LOS, Accounts, reporting, and integration workflow.

- Developed T-SQL queries, Stored Procedures, and back-end APIs for banking business processes and reporting.
- Optimized database operations and resolved production issues across application, database, and API integrations.

Trainee – Cognitive Platform Solutions (Oct 2023 – Mar 2024)

- Developed back-end components for telecom and warehouse management systems using APIs and SQL.
- Implemented database-driven workflow, data validation, and application integrations.
- Supported testing, debugging, production issue resolution, and application maintenance.

PROJECTS

Xtenda Banking Platform – LMS, LOS & Accounts

- Developed and supported banking workflows, reporting, database logic, and API integrations.

CRB Integration Automation

- Automated CRB reporting and batch processing with validation, scheduled execution, and integration tracking.

Multi-Bank Payment Integration

- Supported payment integrations with multiple banks, including transaction processing and API integration.

Zamtel Telecom Platform

- Developed recharge, top-up, dealer, and stock management workflows for telecom operations.

Digital Warehouse Management

- Developed inventory, stock tracking, and warehouse management workflows.

Asset Management System

- Built a full-stack asset lifecycle management system with REST APIs, authentication, depreciation, and reporting

EDUCATION

B.Tech (Computer Science and Engineering) - Sri Venkateshwaraa College of Engineering and Technology, Pondicherry 2020 – 2024 CGPA: 8.9
--

HSLC - Sri Sarada Vidyalaya, Ulundurpet, Tamil Nadu 2019 – 2020 84%
--

SSLC - Sri Sarada Vidyalaya, Ulundurpet, Tamil Nadu 2017 – 2018 87%
--

CERTIFICATIONS

- Microsoft – Extract, Transform and Load Data in Power BI
- Microsoft – Harnessing the power of data in Power BI
- Microsoft – Process Data from dirty to clean and Prepare Data for Exploration
- Board Infinity – Dot Net Full Stack
